SPECIAL NOTES -

1. Air filter shapes are "T" for Taper (Cone) and "S" for Straight (Cylinder).
2. Unless otherwise noted all air filters can be serviced with cleaning kit number 6888838.
3. *Special Order* items please ask a sales representative for assistance.

These recommendations are based on AirSep systems supplied to our OEM customers and Walker Engineering aftermarket AirSep systems. If your configuration is different please measure and verify the air filter dimensions. Any questions regarding air filter sizing should be forwarded to an authorized engine dealer for the engine in question. Walker Engineering has been supplying AirSep systems to major OEM engine manufacturers since 1990.

Complete air filter cleaning instructions are provided with every air filter cleaning kit.
