MTC APP GUIDE

Siren Marine Has You Covered

- **PROTECTION**
  Siren Marine protects you against the common occurrences every boater experiences. From simple annoyances like a dead battery, bilge full of water, drifting anchor, and lost shore power, to serious problems like a break in or sinking, our products keep you safe!

- **PEACE OF MIND**
  Know about the vital systems on your boat with regular scheduled reports, and event-triggered alerts, giving you the confidence you deserve.

- **CONVENIENCE**
  Time is a luxury that most of us don't have. With Siren Marine you will eliminate surprises and maximize your time on the water.

- **INSURANCE DISCOUNTS**
  Our customers typically get a 5-7% reduction in their insurance premiums. Ask your insurance agent to see if you qualify.

- **WELCOME TO THE FUTURE**
  Our customers enjoy the ability to check on the vital systems of their boat, and control accessories.

MTC Standard Features

The Siren Marine App allows you to remotely monitor, track and control your boat from any mobile device. Receive alerts, control onboard devices, and track your boat's position.

Siren Marine offers peace of mind and a better boating experience. Visit sirenmarine.com to get more details about installing a Siren Marine system on your boat.

GPS Position & Geofence
Track the location and movement of the boat.

Battery Monitoring
Receive alerts if battery voltage is low.

Engine Metrics
Connect to the engine to monitor hours and receive service reminders.

Bilge
Connect to a bilge pump or high-water sensor.

Security
Add motion sensor, proximity switch, canvas snap sensor, or pressure pad.

Shore Power
Add sensor to power outlet to monitor shore power connection.

Temperature
Monitor temperature of cabin, engine room, fridge, or bait locker.

Control Devices
Add wireless or wired sensors to control lights, HVAC, Bilge Pumps, etc.

1 Activate

Upon launching the Siren Marine app for the first time, you will need to enter your **Email** and **Device ESN** (your ESN can be found on the back of your unit).

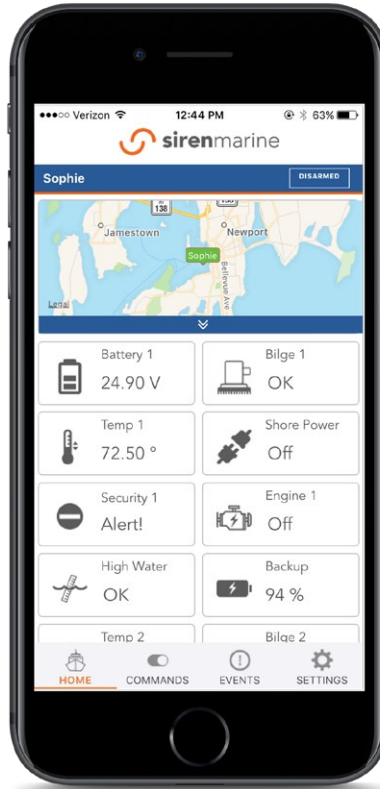

2 Login

Login with **User Name** and **Password** that was created/assigned on **Sirenmarine.com**.

3 Dashboard

- Once signed in you will be brought to the **Homepage**.

- This page displays all the information that is currently being monitored by your Siren Marine system.

- **Click Into Any Sensor** for detailed information and to set up your **Sensor Rules**.

4 Metrics

- Selecting a **Sensor Icon** from the dashboard will bring you to that sensor metric page.

- Every sensor page will show a chart and have customized parameters for you to set.

- Click the boxes on the top right of the page to edit alert parameters.

- Click on **Rules** to edit notification preferences.

5 Notifications

- The Siren Marine app is designed to notify you via a live app notification.

- You can also choose to be notified via text message or email on the **Settings Page**.

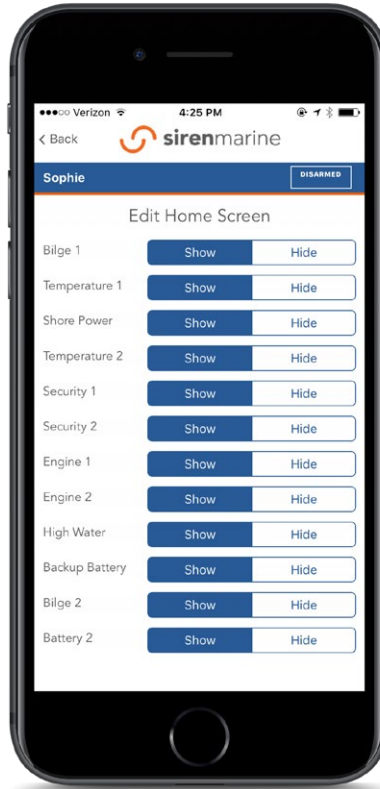

6 Arm Device

- Click the box in the top right of the Home Page to select the **Arm/Disarm** state.

- Select **Arm**, **Aboard**, or **Disarm** to customize your security settings.

- Click **Back** to return to the Home Page.

7 Edit Home Screen

Customize your home screen to only display sensors that you are utilizing by selecting **Edit Home Screen** on the **Settings Page**.

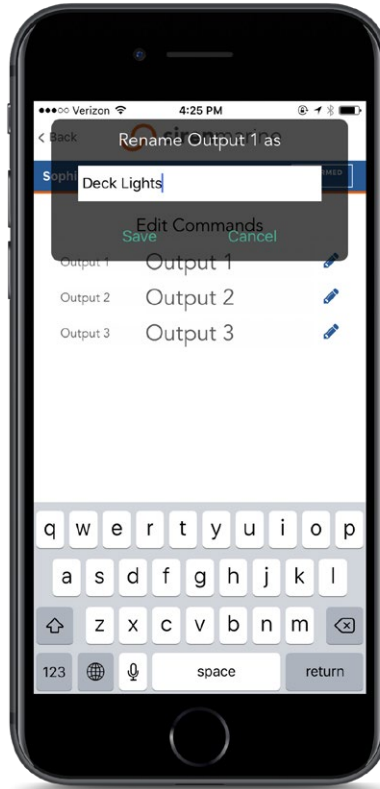

8 Commands

- Go to the **Commands Page** to select and control accessories that are connected to the output terminals on the MTC.

- To change the name of the **Output**, go to the **Settings Page** and follow the steps in **#9**.

- The BlueSea Remote Battery Switch (if installed) can be controlled from this page.
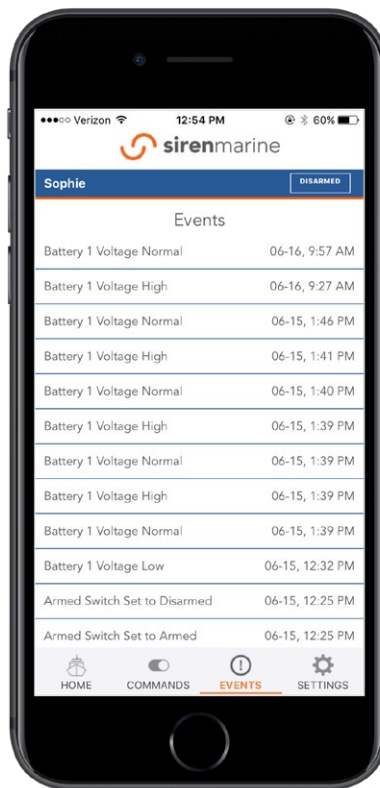

9 Output Renaming

- Go to the **Settings** page.

- Select **Edit Commands**.

- Click on the edit symbol for **Output 1**, **Output 2** or **Output 3**.

- Enter the output name, and press **Save**.

10 Events

- The **Events Page** lists all alerts from every sensor that is being monitored by your Siren Marine unit.

- Every alert will display a time stamp and the date the event occurred.

⑪ Settings

- Use the **Settings Page** to edit your boat name, contact phone number, and email address.

- Enable geofence tracking by selecting **Track My Course**.

- Select **Edit Commands** to change the name of your outputs.

- Select **Edit Home Screen** to remove sensor icons from your dashboard that you may not be utilizing.

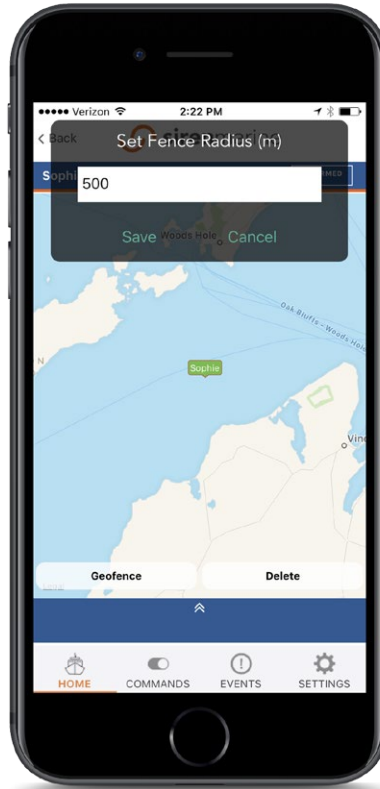

⑫ Multiple Boats

Select the **Boat Name** in the top left of the app to easily switch between boats in your fleet.
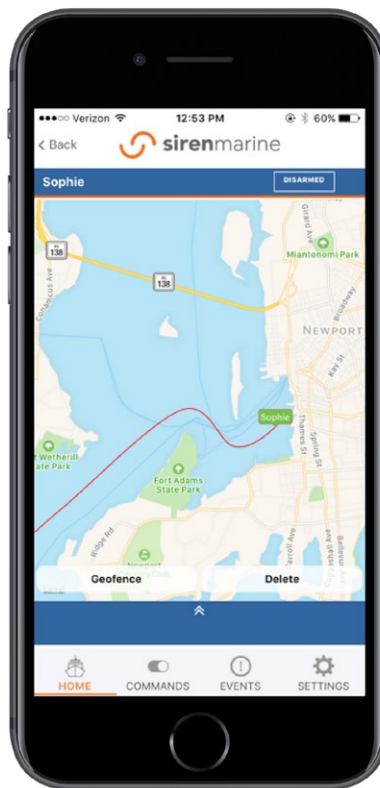

13 Set Map/Geofence

- Access the full screen map by **tapping on the map** displayed on your dashboard.

- Once you have opened the map, create a geofence by tapping on **Geofence.**

- Enter a value (in meters) in the **Geofence Box**.

- Click **Save.**

14 Edit Map/Geofence

- To edit the geofence, click on **Geofence** and enter the new value.

- To delete the geofence, click on **Delete**.

- To add a geofence, hold your finger on the map.
